

Last week, you all created your own theme parks and thought about your profits and losses. This week, we would like you to create...

- an advertising poster

- a 3D style map of your park

Let's have a look at some maps...

What are you going to include in your map?

Do you have different themes?

What rides will you make stand out?

Now you are going to create an advertising poster for your theme park. These might be displayed around town, at bus stops on billboards, etc.

Make them exciting! You need to encourage people to visit your theme park.
